their minds. The researchers found that 15 Germans fluent in English were just as ...

Speaking a second language may change how you see the ...

B. F. Skinner believed children learn language through operant conditioning—that children receive “rewards” for using language in a functional manner. Noam Chomsky’s theory states that children have the innate biological ability to learn language; however, his theory has not been supported by genetic or neurological studies.

Human Language Development | Child Development

The book is also likely to be of interest to interpreters, translators and other English language professionals. It will explore selected aspects and problem areas of English from a broadly "functional" linguistic perspective.
