About the Night by Anat Talshir -

Goodreads

Night or nighttime is the period of ambient darkness from sunset to sunrise during each 24-hour day, when the Sun is below the horizon. The exact time when night begins and ends depends on the location and varies throughout the year. When night is considered as a period that follows evening, it is usually considered to start around 8 pm and to last to about 4 am. Night ends with coming of morning at sunrise. The word can be used in a different sense as the time between bedtime and morning. In co

1. Starry Night was painted in an asylum. Vincent Van Gogh had a troubled life. The events that led up to him cutting off part of his own ear (only a small part of his ear lobe though) at the end of 1888 made him decide it was enough. So he checked himself into an asylum called Saint-Paul-de-Mausole.. On
