The idea that business is only about the money doesn't hold true in the twenty-first century, when companies around the world are giving up traditional distinctions in order to succeed. Yet our expectations for businesses remain under the sway of an outdated worldview that emphasizes profits for shareholders above all else. *The Power of And* offers a new narrative about the nature of business, revealing the focus on responsibility and ethics that unites today's most influential ideas and companies. R. Edward Freeman, Kirsten E. Martin, and Bidhan L. Parmar detail an emerging business model built on five key concepts: prioritizing purpose as well as profits; creating value for stakeholders as well as shareholders; seeing business as embedded in society as well as markets; recognizing people's full humanity as well as their economic interests; and integrating business and ethics into a more holistic model. Drawing on examples across companies, industries, and countries, they show that these values support persevering in hard times and prospering over the long term. Real-world success stories disprove the conventional wisdom that there are unavoidable trade-offs between acting ethically and succeeding financially. The

With these challenges come others as well. Recent studies confirm that more than half of all divorces are the result of financial pressures at home. episode of her "Bad With Money" podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. "That's a very personal question," they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In *Bad With Money*, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that "even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers" we can all start taking control of our financial futures.
