Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

The Citizen Bee is a national competition for high school students sponsored by the Close Up Foundation. The main guide is a survey of U.S. history, culture, government, economics, and geography addressed to students and designed to prepare them for that competition. The guide is divided into 13 chapters: (1) "The Revolutionary Spirit," (2) "A Nation Emerges," (3) "Triumph of the Nation," (4) "An Era of Reform," (5) "Emergence as a World Power," (6) "The Sixties and After," (7) "The Constitution," (8) "The Legislative Branch," (9) "The Executive Branch," (10) "The Judicial Branch," (11) "The Electoral Process," (12) "Principles and Practice" (concerning economics), and (13) "America's Land and People." Each chapter opens with a short essay followed by 75 to 100 questions on the chapter topic, some of which are based on maps, charts, and graphs. Appendix 1 contains the U.S. Constitution. Appendix 2 points out aspects of U.S. political thought and government that students should be familiar with. A glossary and a 29-item bibliography are also included. Students entering the competition are responsible for knowing all the information presented in the book; they must also read and understand the information in the appendices, locate the 50 states and their capitals on a map of the United States, and locate all nations mentioned in the book on a map of the world. While intended for those entering the competition, the guide could be used by any student studying the United States. The Coordinator's and Teacher's Guide accompanying the student book provides information for coordinating the competition at the school level and for helping students prepare. The rules of the competition are provided and the format is explained. Suggestions are offered regarding activities and learning strategies to help prepare students, and a teaching guide and answer key to all the questions asked in the student's book. (JD)
