all sorts of wrong directions, and he nearly drowns in an immersion class in Provence, where, faced with the riddle of masculine breasts, feminine beards, and a turkey cutlet of uncertain gender, he starts to wonder whether he should've taken up golf instead of French. While playing hooky from grammar lessons and memory

techniques, Alexander reports on the riotous workings of the Académie française, the four-hundred-year-old institution charged with keeping the language pure; explores the science of human communication, learning why it's harder for fifty-year-olds to learn a second language than it is for five-year-olds; and,

frustrated with his progress, explores an IBM research lab, where he trades barbs with a futuristic hand-held translator. Does he succeed in becoming fluent? Readers will be as surprised as Alexander is to discover that, in a fascinating twist, studying French may have had a far greater impact on his life than actually
