This product of the Facility Guidelines Institute (FGI) provides minimum standards for design and construction of hospitals and outpatient facilities. The standards for long- term care facilities will appear in a new document for 2014; please see the entry for Guidelines for Design and Construction of Residential Health, Care, and Support Facilities. Included in the Guidelines for Hospitals and Outpatient Facilities is information on the planning, design, construction, and commissioning process and facility requirements for both hospitals and outpatient facilities. Included are general hospitals, psychiatric hospitals, and rehabilitation facilities as well as new chapters on children's and critical access hospitals. Outpatient facilities covered include primary care facilities; outpatient surgery facilities; birth centers; urgent care centers; mobile units; outpatient psychiatric and rehabilitation centers; facilities for endoscopy, dialysis, and cancer treatment; and a new chapter on dental facilities. In addition, the 2014

Guidelines includes new material on safety risk assessments and medication safety zones; increased requirements for commissioning infrastructure systems; and updated requirements for surgery, imaging, endoscopy, and dialysis facilities as well as primary care facilities and freestanding emergency facilities.

Whether you want to learn lockpicking or locksmithing, or choose locks that are virtually impossible to defeat, this classic will meet your needs. The top reference in the field since 1976, this book is perfect for everyone from beginners who want to master techniques step by illustrated step, to pros who need an up-to-date, comprehensive shop manual. The Sixth Edition features:

- Complete, illustrated coverage from a master locksmith.
- Techniques and tips for lockpicking and fixing.
- Safe opening and servicing techniques.
- Coverage of electronic and high-security mechanical locks.
- Auto lock opening and servicing how-tos.
- An all-new Registered Locksmith test.
- How to conduct a home security survey
- How to start and run a locksmithing business, or get hired as a locksmith.

Vols. for 1970-71 includes manufacturers' catalogs.

This series covers the entire scope of rotary drilling operations in five units of technical information and review questions. These units are published in cooperation with the International Association of Drilling Contractors. In some cases, previous editions are available in Spanish, while supplies last, for \$14. Open-book comprehensive tests covering Units I, II, III, and V of the Rotary Drilling Series are available. This totally rewritten lesson deals with the proper handling and maintenance of the crown and traveling blocks and the drilling line. It also covers inspection procedures for equipment and programs for increasing drilling line service life. All measurements are given in both U.S. and SI units. Illustrations, summary boxes, and study questions enhance the student's learning experience.

A bestseller for professional machinists and metalworkers that also has a large following in the home shop, do-it-yourself niche.

This training circular contains basic and advanced training and techniques for static line parachuting. It is designed to standardize procedures for initial qualification and training of personnel in their duties and responsibilities in airborne operations. The jumpmaster, assistant jumpmaster, safeties, DACO, DZSTL, and DZSO occupy key positions in airborne operations. This manual contains the initial training and qualifications of the personnel designated to occupy these critical positions. This training circular (TC) provides all Department of Defense (DOD) Airborne personnel with techniques and training guidelines to maintain an Airborne force. It also updates FM 3-21.220, dated 23 September 2003. This publication supersedes FM 3-21.220/MCWP 3-15.7/AFMAN 11-420/NAVSEA, SS400-AF-MMO-010, 23 Sept 2003. This book applies to the U.S. Army, the U.S. Army National Guard (ARNG), the U.S. Army Reserve (USAR), the United States Marine Corps, the Department of the Navy, and the Department of the Air Force. TC 3-21.220 (FM 3-21.220) MCWP 3-315.7 AFMAN 11-420 NAVSEA SS400-AF-MMO-010
