Text only. This product does NOT include a Resource Central Access Code Card. To purchase the text with a Resource Central Access Code Card, please use ISBN: 0-13-281811-6 For more than 30 years, International Trauma Life Support has been at the forefront of trauma education at all levels of emergency care worldwide. This practical, hands-on training offers a complete reference covering all skills necessary for rapid assessment, resuscitation, stabilization, and transportation of the trauma patient. Updated with new photos and the latest approaches to the care of the trauma patient, this seventh edition conforms to the most recent AHA/ILCOR guidelines for artificial ventilation and CPR.

Advanced Paediatric Life Support is the internationally renowned manual on emergency paediatric care, written to support the course run by the Advanced Life Support Group. Using their structured approach, a tried and tested practical method of treating children during the crucial first few hours of a life threatening illness or injury, Advanced Paediatric Life Support is used by doctors, nurses and allied health professionals dealing with emergencies in children. Its clear layout and straightforward style make it a highly practical tool both for training and in the event of an emergency. The sixth edition includes major new features bringing it right up to date, including: The latest International Liaison Committee on Resuscitation (ILCOR) 2015 Guidelines The latest consensus guidelines on paediatric trauma Enhanced discussions on the importance of human factors A new and improved design including full colour photographs and diagrams Free access to the Wiley E-Text With this book at hand, all those providing care during paediatric emergencies can be confident in having comprehensive and authoritative guidance on the recognition and management of life threatening conditions necessary to save a child's life. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes, Google Play or the MedHand Store.

Homeland Security and Emergency Response is a first edition product for McGraw-Hill Higher Education. The book and its ancillaries are being developed and designed to meet the needs of a 15 hour course by the same name. It focuses on providing information on recognizing threats, acting on threats, and providing patient care as well as the communication that must occur when a threat to homeland security occurs. Threats covered include Biological, Nuclear, Chemical, Incendiary and Explosive threats. Additional information on Clandestine Drug Laboratories is also covered. The information is easy-to-read and step-by-step procedures for using related equipment and skills are included. The primary market for this product suite and course include those in emergency medical services (paramedics, EMT-Basics, First Responders), police, and those in fire. McGraw-Hill Public Safety Website

In this groundbreaking book, a leading clinical psychiatrist redefines how we think about and treat victims of trauma. A "stunning achievement" that remains a "classic for our generation." (Bessel van der Kolk, M.D., author of *The Body Keeps the Score*). *Trauma and Recovery* is revered as the seminal text on understanding trauma survivors. By placing individual experience in a broader political frame, Harvard psychiatrist Judith Herman argues that psychological trauma is inseparable from its social and political context. Drawing on her own research on incest, as well as a vast literature on combat veterans and victims of political terror, she shows surprising parallels between private horrors like child abuse and public horrors like war. Hailed by the *New York Times* as "one of the most important psychiatry works to be published since Freud," *Trauma and Recovery* is essential reading for anyone who seeks to understand how we heal and are healed.

Think back to a time when paramedics didn't exist. When "drivers" simply brought injured patients to the hospital. When the EMS industry was in its infancy. A time before Nancy Caroline. Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also wrote the first paramedic textbook: *Emergency Care in the Streets*. The impact that Dr. Caroline had on EMS and health care spanned across the U.S. and abroad. From establishing EMS systems to training paramedics, to providing better nourishment and health care for orphans, her work had a profound impact on humanity. Throughout her life, Dr. Caroline brought a sense of excitement, joy, and humor to her work. The American Academy of Orthopaedic Surgeons is proud to continue Dr. Caroline's legacy. Her sense of excitement and humor live on in this text, which is dedicated to her. The Sixth Edition honors Dr. Caroline's work with a clear, fun, understandable writing style for which she was known. Welcome back a familiar training companion to your classroom! Say hello to Sidney Sinus, AV Abe, and a cast of memorable characters and amusing anecdotes. Make learning for your students more fun!

As the required textbook for NAEMTUs worldwide prehospital trauma life support courses, this is the definitive resource for learning basic and advanced prehospital trauma skills and concepts. Now revised and expanded to cover all aspects of military prehospital trauma with 12 new chapters, this edition is tailored expressly for the military.
