In addition to exacting instruction in various Kriya techniques, the book also discusses the theory and philosophy of Shyama Charan Lahiri, in order to help you get to the core of the Kriya yoga philosophy. From beginning to end, it was written in order to help you break free from anything hindering your Kriya practice. If you are already a member of an existing Kriya organization, the information in this book may surprise you or even challenge your beliefs. Please understand that I am simply relaying the complete path of Kriya, techniques and philosophy exactly as I believe that the

originator, Lahiri Mahasaya,

understood it. To this end, I researched every possible source and compiled it, saving you the time of endlessly seeking and deciphering instructions from different Kriya schools, which are spread across all corners of the Earth. Some people may ask, "How does this book differ from that information presented on various websites?" It isn't the fact that some of this information could not be found in other places. That could be said of any book.

However, this book saves you the time of finding, collecting and deciphering this information for yourself. It is a self-contained workbook. Everything you need to achieve the highest goals of Kriya is in this book. Here is what some

people are saying: "Just received my book yesterday, and so far I am really enjoying it. I had a hard time putting it down last night and ended up staying up a lot later than I should have. I have a feeling It's going to be another late night tonight." - M.B. "I took delivery of your book yesterday and would like to thank you for collating this information from various sources. ... In summary, thank you for your book. I am impressed by both the content and the presentation." - Doctor M.

By the correct practice of Kriya fourteen times, Maha Mudra twice, and Yoti Mudra twice, twelve years of evolution of body, mind and soul will be gained in a few minutes. Mind can do everything.

Through this practice, the time limitation in evolution is overcome, and the receptive power of the spine, brain and mind is increased, so that the Yogi knows, sees and feels all form within. Yoga is the super-method by which the evolution of body, mind and soul can be quickened. That is how the attainment of wisdom and realization, which usually takes a million years and numerous incarnations of natural evolution, is possible in one lifetime. By this exercise, the consciousness which is in the body, and which is identified with the senses, is transferred to the spine and the brain, and thus transmitted into Superconsciousness and Cosmic Consciousness. Kriya is an initiation into Cosmic

Consciousness, or the transfer of consciousness from the body to the spirit. In order to do this, one must transfer consciousness from the senses to the spine. After practicing Kriya and resting for a short while, one is able to do inspired work in connection with literature, art of science . then intuition develops of itself, without effort, because one ' s consciousness is transferred from the senses to the spine and brain. Realization can come only by the development of one ' s intuition. Remember that through the practice of this lesson you will contact Christ, and the prophets of this world, and through them you will find your union with God the Infinite Spirit.

Restlessness and Calmness are

always together. Restlessness comes from the mundane body. Submerge your soul in the Infinite before, during, and after every act-then you will get calmness. We are born for Self-realization-the God-consciousness in us. Think of God constantly, no matter what you are doing. Practice makes man perfect. An ounce of practice is worth a ton of theories. Theory will take a devotee outside, while practice will take him inside. Theory will make an individual restless and selfish. Practice will give him inner peace and liberation from ego.
