The Complete Beginner to Expert Guide to Maximizing your 2020 MacBook Air.Are you looking for a comprehensive user manual that will help you SETUP and MASTER your MacBook Air? Are you looking for a manual that will expose you to all the amazing features of your device and 2020 MacOS Catalina 10.15? Then get your hands on this book and have an amazing time using your device.Apple updated the MacBook Air in a major way in mid-March 2020. While it may look like the previous version on the surface, dig a little deeper and you'll see it's the most significant upgrade since the 2018 redesign, offering buyers much more interesting customization options.The third iteration of the 'new' MacBook Air design finally nails every area well enough to make this the best MacBook for most people. The keyboard is the star of the show here. Yep, that's right. Apple ditched the disastrous butterfly keyboard for its Magic Keyboard and all I can say is: thank goodness. Even with all these new features, Apple still managed to keep the starting price at a relatively affordable \$999. The MacBook Air (2020) comes with all the right improvements without sacrificing the best features of the previous version.Apple didn't reinvent the MacBook Air on the outside. But the 2020 model does have some exciting improvements under the hood. There's a 10th-generation processor, and double the base storage.There is0a lot to love in Apple's latest MacBook Air. This book is written in simple and clear terms, with a step-by-step approach that will help you to master your MacBook Air with 2020 MacOS Catalina 10.15 within the shortest period of time. Here is a preview of the topics in this guide: -Take a tour of your new MacBook Air-How to Get Started-Use MacBook Air with other Devices-Apps included with your Mac-What's in the menu bar on Mac?-How to search with Spotlight on Mac-Customize the Dock-See and organize your files in the Finder on Mac-Use Launchpad to view and open apps on Mac-How to manage windows -Use apps in Split View -Install and uninstall apps from the internet or disc on Mac-Customize your Mac with System Preferences-Use your internet accounts-Use accessibility features on Mac-Set up users, guests, and groups-Create and work with documents-Dictate your messages and documents -Set a different keyboard dictation shortcut-Back up your files with Time Machine -Create an Apple ID on Mac-Sign in to a new device or browser with two-factor authentication-Use iCloud Drive to store documents on your Mac-Set up Family Sharing on Mac-View and download purchases made by other family members-Use Continuity to work across Apple devices-Use your iPad as a second display for your Mac-Unlock your Mac and approve requests with Apple Watch-Listen to podcasts on Mac-Read books in Books on Mac-Customize your Game Center account-Manage passwords using keychains on Mac-And so much more!Scroll up and click BUY WITH 1-CLICK to add this book to your library.

In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise known as Sidecar and lots more. This user guide contains detailed steps on how to explore all the new features on your computer along with screenshots to make it easy for you to familiarize yourself with the workings of the macOS Catalina. Whether you are just buying a new Mac device or downloading the new software to your existing device, this book would help you to achieve better and faster productivity. Some of the things you would learn in this book include: How to Install macOS Catalina How to Backup and Restore your Devices on macOS Catalina How to Organize the Mac Desktop How to Use Find My How to Sign Documents on your Devices How to Setup Sidecar on your Devices How to Use Apple Music in the Music App How to Make Use of the Notes App How to Use Reminders on Mac How to Use the Podcasts App How to Sync on macOS Catalina How to Use Apple TV App How to Use Screen Time on Mac How to Use Voice Controls on Mac How to Use Safari And Lots More...

All disciplines of science and engineering use numerical methods for complex problem analysis, due to the highly mathematical nature of the field. Analytical methods alone are unable to solve many complex problems engineering students and professionals confront. Introduction to MATLAB® Programming for Engineers and Scientists examines the basic elements of code writing, and describes MATLAB® methods for solving common engineering problems and applications across the range of engineering disciplines. The text uses a class-tested learning approach and accessible two-color page design to guide students from basic programming to the skills needed for future coursework and engineering practice.

Updated November 2018 for macOS Mojave In many ways, the MacBook Pro is the ultimate Mac. It's powerful, yet small enough to carry comfortably with one hand. It features a Retina display which makes images, video, and the web look pin-sharp. It can be plugged into a 5K monitor and used as a desktop computer. It's also a beautiful device to behold. If there's a MacBook in your future — or present — this is the book for you!

Apple's new MacBook Air (M1, 2020) is an absolutely fantastic laptop, and thanks to brilliant new additions, in the form of Apple's own M1 chip (which replaces the Intel processors used by the company) and an improved screen. In previous years, the MacBook Air was a reduced version of the MacBook, which was an excellent thin and light laptop for everyday use, but due to its low features did not really fit into intense creative workloads, such as editing, transfer ultra-high definition video or complex 3D animated scenes. However, this latest version has the same M1 chip introduced in the new MacBook Pro 13-inch (M1, 2020), which means that for the first time the MacBook Air can compete with the more expensive laptop. So it really deserves a place around the best laptops in graphic design. It is better, and still the most inexpensive MacBook you can get right now, and it means if you're looking for a slim and lightweight 13-inch laptop for video and photo editing, then the MacBook Air (M1, 2020) is the perfect choice. This guide will teach you how to master your MacBook Air [M1,2020] very fast, this guide is ideal for both Pros and newbies. Here are the contents of this guide Features of MacBook air Find what you are using Safari on your Mac View web pages on your another devices in Safari on your Mac See other device, open web page Close a webpage that opens on another device Hand off a web page between devices Select the web pages you want to view in Safari on your Mac Find a bookmark Use Bookmark Manage bookmarks Play web videos in Safari on your Mac Play web video on your HDTV Mute audio in tabs in Safari on Mac Fill in the information from the contacts Save the reading list in Safari on the Mac Read from your reading list Block pop-ups in Safari on Mac Always open windows with private browsing Stop private browsing Avoid cross-tracking in Safari on your Mac Safari troubleshooting on Mac Search is not effective AutoFill does not work What is family sharing? Add more people to FaceTime calls Redirect email as an attachment Reply to email automatically Redirect Email Ask Siri. Say something like this Set the maximum volume for the speakers If you cannot choose your remote speakers If the AirPlay device has a problem Check the icon next to the device Use a music equalizer Pair iTunes with your Remote Media Library Pair iTunes Remote with your home device Scroll up and click the Buy Now button to purchase this guide

The MacBook Pro models are Apple's most powerful mobile computers. The 13" model has also been available with the Apple M1 chip as an alternative to the Intel Core i5 and i7 chips since autumn 2020. The Touch Bar with Touch ID sensor (in all current models) automatically adapts to the tasks that you are currently working on. The models with Apple M1 and Intel 1.4 GHz chip have two Thunderbolt 3 ports - all other variants have four. At 1.37 kg , the 13" models with Retina display are only slightly heavier than a MacBook Air. The 16" models (from 2019) weigh 2.00 kg. According to Apple, the battery lasts up to 20 hours (13") or 11 hours (16"). Are you looking for a manual that will expose you to all the amazing features of your device and MacOS big sur? Then get your hands on this book and have an amazing time using your device. Here is a preview of it what the book contains * How to Set up macbook pro * How to Backup and restore your mac * How to transfer your data to your new mac pro * How to Manage files in batches on mac * How to Change the language used by the mac * How to Use dock on mac * How to Use "control center" on mac * How to Organize files in the finder on mac * How the ipad can be used as a second screen for mac * Connect your mac to the internet * Use touch id on mac * Keep your mac up to date * Use macOS keyboard shortcuts * Create apple id on mac * Set apple id preferences on mac * Set up icloud function on mac * Use "icloud drive" to store files on mac, iphone and ipad * Manage icloud storage space on mac * Unlock the mac and allow requests with the apple watch * How to Set up family sharing on mac * Make a call in facetime on mac * Answer incoming calls in facetime on mac * Make safari the default web browser on mac * Customize the safari browser window on mac * Change preferences for safari on mac * Block pop-up menus in safari on mac * Prevent cross-site tracking in safari on mac * How to manage website data and cookies in safari on mac * Paying with the apple pay in safari on mac * Fill in credit card information automatically in safari on mac * Customize your mac in system preferences * Change the desktop background on your mac * How to Use your internet account on mac and more.

Apple introduced a new iMac using the M1 chip with a more compact and ultra-thin design. The new iMac comes with great performance in a slim design of just 11.5mm, with a stunning side profile that virtually fades. The iMac has a 24-inch 4.5K Retina display with 11.3 million pixels, 500 nits of brightness, and more than 1 billion colors. Provides a variety of bright colors to match the user's style and illuminates any space, giving a glowing and vibrant viewing experience. The new iMac also includes a 1080p FaceTime HD camera, a studio-quality microphone, and a six-speaker audio system - the best camera and audio Mac of all time. In addition, the iMac is equipped with Touch ID for the first time, making it easier than ever to sign-in securely, purchase with Apple Pay or change user profile with the touch of a finger. Combining the power with the performance of the M1 and macOS Big Sur, applications start very fast, everyday tasks feel very fast and smooth, and on-demand loads (such as 4K video editing and large image processing) are faster than ever. The new iMac joins the incredible family of M1-powered Mac models, including the MacBook Air, 13-inch MacBook Pro, and Mac mini, and this is another step forward in Apple's transition to the Apple silicon. The iMac is by far the most personal, powerful, and capable, and exciting product. Here's an overview of what you'll find in this book Features Of The New M1 Chip iMac 2021 How to Set Up a New Mac Features Of macOS Big Sur How to Transfer Data to the New Mac How To Back Up Your Mac Siri How to Set Up Apple Pay on a Mac How to Set up Family Sharing And Lot More Scroll up and click the BUY NOW icon to get this book now
