In At the origin of the Christian claim Luigi Giussani examines Christ's "claim" to identify himself with the mystery that is the ultimate answer to our search for the meaning of existence. Giussani argues that if we accept the hypothesis that the mystery entered the realm of human existence and spoke in human terms, the relationship between the individual and God is no longer based on a moral, imaginative or aesthetic human effort but instead on coming upon an event in one's life. Thus the religious method is overturned by Christ; in Christianity it is no longer the person who seeks to know the mystery but the mystery that makes himself known by entering history. At

the origin of the Christian claim presents an intriguing argument supported with ample documentation from the gospels and other theological writing.

Unusual yet reasonable approaches to living life as a Christian.

From its beginnings, the Church has presented itself as a human phenomenon that carries the divine within it. As a social fact, its reality given form by men and women, the Church has always affirmed that its existence surpasses the human reality of its components and that it stands as the continuation of the event of Christ's entry into human history. Why the Church?, the final volume in McGill-Queen's University Press's trilogy of Luigi Giussani's writings, explores the Church's definition of itself as both human and divine and evaluates the truth of this claim.

Giussani challenges us to penetrate the deepest levels of experience to discover our essential selves, breaking through the layers of opinions and judgments that have obscured our true needs. Asserting that all the tools necessary for self-discovery are inherent within us, he focuses primarily on reason, not as narrowly defined by modern philosophers, but as an openness to existence, a capacity to comprehend and affirm reality in all of its dimensions. Part of the so-called new religious revival, *The Religious Sense* avoids any sentimental or irrational reduction of the religious experience. It is a forthright and refreshing call to reassess our lives.

Monsignor Luigi Giussani (1922–2005) was the founder of the Catholic lay movement Communion and Liberation in Italy, which has hundreds of thousands of adherents around the globe. In *The Life of Luigi Giussani* Alberto Savorana, who spent an important part of his life working and studying with Giussani, draws on many unpublished documents to recount who the priest was and how he lived. Giussani's life story is particularly significant because it shares many of the same challenges, risks, and paths toward enlightenment that are described in his numerous and influential publications. Savorana demonstrates that the circumstances Giussani experienced and the people he encountered played a crucial role in defining his vocation. Illuminating details are shared about Giussani's parents, professors, and friends in the seminary, the things he read, his priesthood, his experience teaching, misunderstandings and moments of recognition, and illness. Luigi Giussani considered Christianity to be a fact, a real event in human life, which takes the form of an encounter, inviting anyone and everyone to verify its relevance to life's needs. This is what happened for so many people all over the world who recognized in this priest and leader, with his rough and captivating voice, not only a teacher to learn from, but above all a man to compare oneself with – a companion for the journey who could be trusted to answer the question: how can we live? In addition to providing the first chronological reconstruction of the life of the founder of Communion and Liberation, *The Life of Luigi Giussani* provides a detailed account of his legacy and what his life's work meant to individual people and the Church.

Generating Traces in the History of the World is a synthesis of Monsignor Luigi Giussani's reflection on the Christian experience. His exploration of Christianity as an unforeseen and unforeseeable event in which the mystery became a man reveals how, by acknowledging this fact, an individual is simultaneously able to use reason and be moved by affection. Discussing the ways in which Christ continues to be

present in history through the companionship of those whom He joins to himself in Baptism, Giussani illuminates how a sense of Christ's mercy can overcome negativity and encourage a useful life. A profound and moving work, *Generating Traces in the History of the World* will interest all those who have been inspired by Giussani's thought.

In 2005, Father Julián Carrón became the leader of the global ecclesial movement *Communion and Liberation*, following the death of the movement's founder, Father Luigi Giussani. *Disarming Beauty* is the English translation of an engaging and thought-provoking collection of essays by one of the principal Catholic leaders and intellectuals in the world today. Adapted from talks given by Fr. Carrón, these essays have been thoroughly reworked by the author to offer an organic presentation of a decade-long journey. They present the content of his elaboration of the gospel message in light of the tradition of Fr. Giussani, the teachings of the popes, and the urgent needs of contemporary people. Carrón offers a broad diagnosis of challenges in society and then introduces their implications in contexts such as families, schools, workplaces, and political communities. In a dialogue with his listeners, he inspires and encourages them to lay out a new path for the Catholic church and the world. Throughout his essays, Carrón addresses the most pressing questions facing theologians today and provides insights that will interest everyone, from the most devout to the firm nonbeliever. Grappling with the interaction of Christian faith and modern culture, Carrón treats in very real and concrete ways what is essential to maintaining and developing Christian faith, and he invites an ongoing conversation about the meaning of faith, truth, and freedom.
