How To Change Oil & Fuel Filters - TOYOTA D4D - YouTube

Various Toyota engines employ the D4d tech. That just means the engine is equipped with a direct injection system. That being said most Toyota engines require synthetic oil with 5W30 viscosity rating. Some require 0W20 or 5W20 synthetic. The easiest way to know which your car requires it to check the crankcase cover, i.e where engine oil is dumped in through. Or the owners manual of the vehicle.
