Photo or photograph - Anything taken by a camera, digital camera, or photocopier. Picture - A drawing, painting, or artwork created on a computer. A picture is also used to describe anything created using a camera or scanner. The image above is a visual example of the differences between these three words.

What is the difference between an image, photo, and a picture?

In the NewsAccomplishing what was previously thought to be impossible, a team of international astronomers has captured an image of a black hole's silhouette. Evidence of the existence of black holes - mysterious places in space where nothing, not even light, can escape - has existed for quite some time, and astronomers have long observed the effects on the surroundings of these phenomena.
