Perfect competition describes a market structure, where a large number of small firms compete against each other. In this scenario, a single firm does not have any significant market power. As a result, the industry as a whole produces the socially optimal level of output, because none of the firms can influence market prices.

A clearly-established structure gives the group a means to maintain order and resolve disagreements. Structure binds members together. It gives meaning and identity to the people who join the group, as well as to the group itself. Structure in any organization is inevitable-- an organization, by definition, implies a structure. Your group is ...
